

Somersworth School Department  
Asbestos Management Plan

In compliance with the US Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA), all school buildings with any asbestos present have a copy of the management plan at the main office. Anyone is welcome to view the master plan during normal school hours.

Each management plan includes the most recent 6-month inspection reports. The small amounts of ABCM (floor tile) in the school district are in good condition and encapsulated. We will continue to perform the required inspections every six months and State inspection every three years. The Facilities Director, Andy Lucier, is available to answer questions that anyone may have and can be reached at 603-692-4935 during school hours.
