

February 21, 2019

Dear SYC Parents,

We are conducting through the New Hampshire Department of Education, a non-academic student grades 3-5 and older youth grades 6-8 survey evaluating 21<sup>st</sup> Century Community Learning Center afterschool programs. The student survey questions are a guide to understanding after school experiences and results are used in future program improvements.

The survey is completely voluntary. We do need Parents and legal guardians to give written permission for your student to participate. We will be sending home a permission slip for your signature.

If you have any questions concerning the surveys please feel free to contact me.

Thank-you,

Maureen Jackman
